I am a Native Hunter
By Benedict Noller, Fourth
Grade

I am a native hunter
Lurking in the forest
With a spear
Ready to attack
Me and my crew
One with no hair
On one side
He also has a bow
Quick, there is a deer
I throw my spear
And I hit it
Right on its neck
I run up to it
And it is dead
I tell my crew
"Where having
Dinner tonight"
I am a Native hunter.

Cat vs Dog

By Sebastian Z. Johnson, 4th grade

A stray cat was walking down the street. It was living the life of summer condition. And right when the cat stumbled into an alley. It met a humongous Bloodhound. The cat thought it was nice at first. But then the bloodhound chased him across the street and into the city.

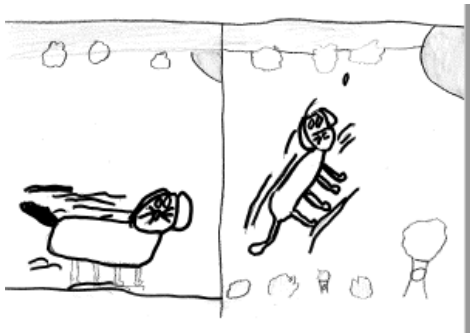

The epic battle was about to begin. They ran up the stairs of a nearby office building. The hound had finally caught up to the cat.

The cat scratched the hound across the face giving him a scar.

The hound bit off the cats tail.

The cat let out a shriek of pain slashing the hounds eyes out.

The hound had lost the battle.

I wonder when it will be my turn?
I am...?

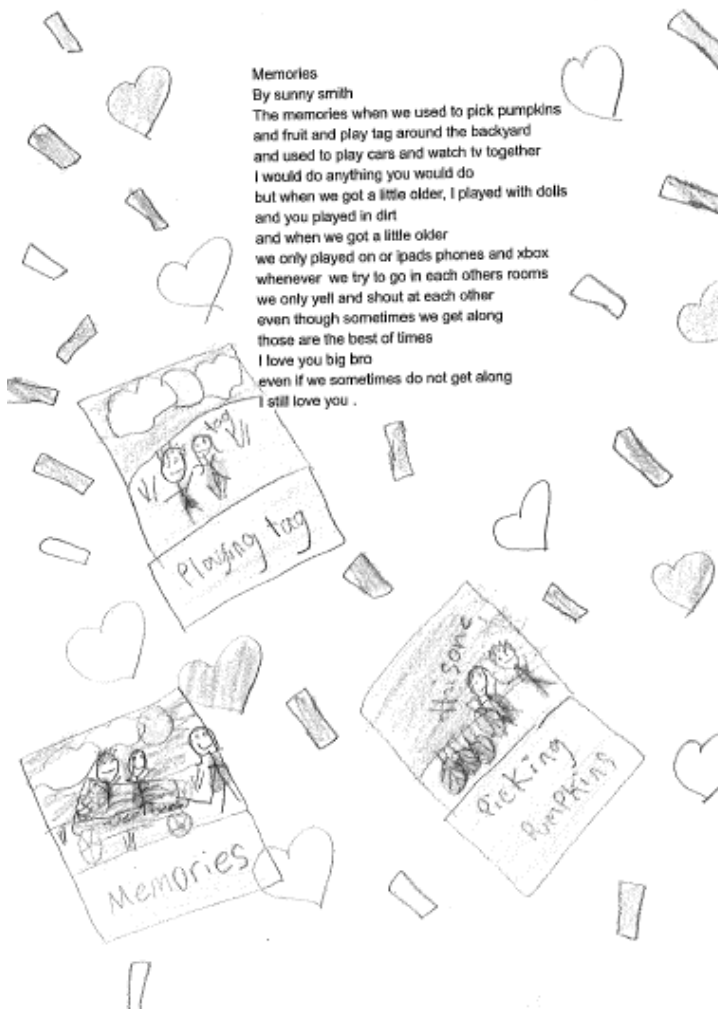

I am a popsicle.

Memories

By sunny smith

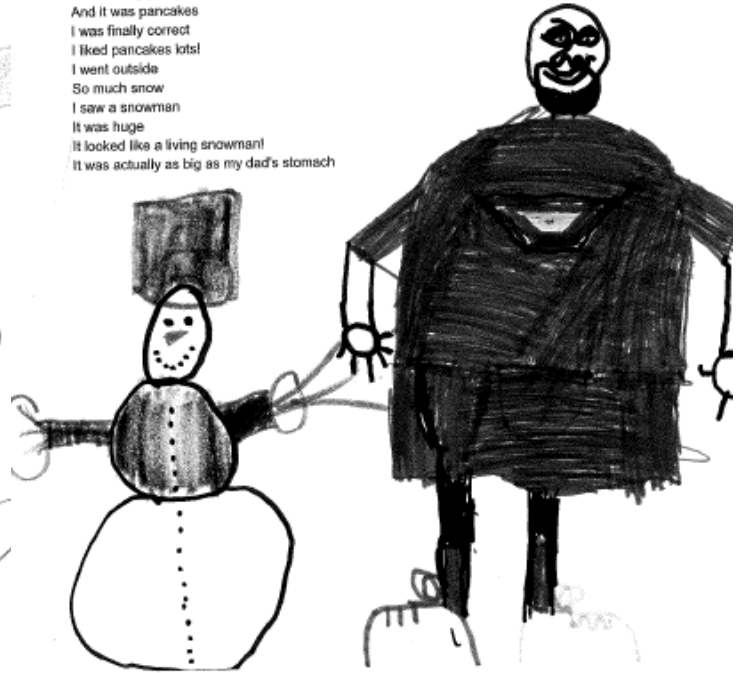

The memories when we used to pick pumpkins
and fruit and play tag around the backyard
and used to play cars and watch tv together
I would do anything you would do
but when we got a little older, I played with dolls
and you played in dirt
and when we got a little older
we only played on or ipads phones and xbox
whenever we try to go in each others rooms
we only yell and shout at each other
even though sometimes we get along
those are the best of times
I love you big bro
even if we sometimes do not get along
I still love you .

The Huge Snowman

By Zach Bowden

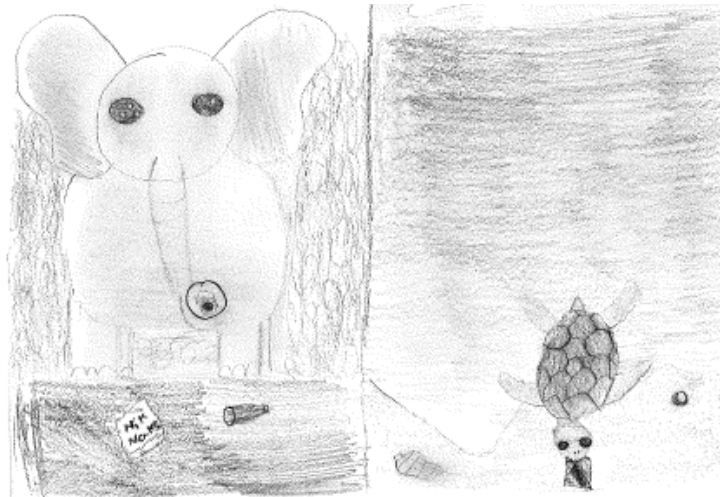

Winter was coming
It was really cold
Mom said breakfast
Is coming!
I knew I was about to have pancakes
But not really
I went down stairs
I saw a christmas tree wow!
And all the decorations
It was really pretty
And it was pancakes
I was finally correct
I liked pancakes lots!
I went outside
So much snow
I saw a snowman
It was huge
It looked like a living snowman!
It was actually as big as my dad's stomach

Animals...

Animals are Carnibals sometimes, but are also mammals.
They are cute, but could also be sold for lute.
They can be wild or tame and can also have a mane or gain weight.
Either way they are all beautiful just the way they are.
A Lot of people litter on the streets or on the beach
and TURTLES and ELEPHANTS are getting EXTINCT
because they eat our trash.
I love all animals and I don't want any of them to get extinct.

Snakes

By Hadleigh Wilson, Fourth Grade

Different Snakes

There are different kinds of snakes around the world. Pythons are a family of non-venomous snakes. They are mostly found in Africa, Asia, and Australia. They are in the family of the largest non-venomous snakes. King Snakes look very similar to Coral Snakes. There is a saying so you don't get confused about venomous and non-venomous snakes. The saying is "black touch yellow kills a fellow, black touch red friend of Jack." There are over 3,000 species of snakes in the world.

Another kind of snake, a black racer. This snake lives. Most black racers live in the southern United States; they also live in forested places, thick bushes, fields, and big gardens. A corn snake lives in north America, southern and central United States.

What Snakes Eat

Snakes eat a lot of different foods. Some snakes eat bigger animals while others eat insects. All snakes are meat eaters. Snakes don't have teeth for them to chew with. Snakes can't chew food so they just swallow it whole. All black racers eat insects, frogs, lizards, smaller snakes,

moles and birds.

Where Snakes Live

Snakes live in every continent except Antarctica. Brazil has 375 different species of snakes. Snakes can live in water, forests, and deserts.

What Snakes Look Like

Snakes have forked tongues. They use their tongues for smelling and sense things. Snakes are smooth and some are scaly. Some can also climb trees. Snakes have limbless bodies which means they can't move their body parts individually. Snakes have an organ called Jacobson's organ. Most people think snakes don't have ears but that's not true, snakes have

internal ears not external like us. They also don't have eyelids.

My Wishes

If I had 5 wishes I would wish for trips to Hershey Park, Disney World and Hawaii, a million dollars, and a million Robux.

I want to go to Hershey park and eat a big chocolate candy bar. I want to go to the water park and go on the slide. I want to go on a tour of the chocolate factory. I think it will be fun!

I will go on a trip to Hawaii. I would take my cousin to Hawaii. I would try to find a treasure and eat a pineapple.

I will go to Disney world. I will bring my friends and my cousins and we will have so much fun. In Disney World we would go on the ferris wheels. We would go to see characters like Mickey Mouse. I would go see the animals in the Wild Kingdom. It will be a lot of fun.

If I had 100,000 Robux I would buy gear, clothing and costumes for my characters. I need customs for the game on roblox. I would like to get armour. I need gear to protect my robux. I would buy special shirts on Roblox. I hope these wishes come true.
